## WHY ESG x SDP IMPORTANT

### ALIGNING WITH GLOBAL SUPPLY CHAIN STANDARDS STRENGTHENS CORPORATE COMPETITIVENESS

Multinational companies now demand suppliers adhere to specific ESG standards in procurement policies. By proactively formulating and disclosing ESG reports, companies not only meet existing customer expectations but also attract new business opportunities. Embracing these standards sharpens a company's competitive edge.

### ELEVATE YOUR CORPORATE IMAGE AND GAIN INVESTOR TRUST

Exceptional ESG performance helps establish a responsible and sustainable corporate image, enhancing trust among investors, consumers and the public, while amplifying your brand influence.

### ASSESS YOUR COMPANY'S ESG STATUS, STRATEGIZE EFFECTIVELY AND MINIMIZE OPERATIONAL RISKS

By generating ESG reports, gain a comprehensive understanding of your position and identify potential risks in ESG areas. Proactively develop relevant measures and improvement plans to enhance risk management, identify new opportunities, adjust strategies, and boost sustainable operational capabilities.

## ESG x SDP PROFESSIONAL TRAINING

Professional training on Sustainable Development Planning. The curriculum has been globally recognized by the United Nations Department of Economic and Social Affairs (UNDESA) registered number 26908 as a partnership project for the SDGs

### Materiality Matrix

**4. Environmental**

**4.1 Emissions**

The Company had environmental policies to implement

a) Annual carbon accounting of its operation throughout the reporting period following the Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purpose) in Hong Kong published by the Government of the Hong Kong Special Administrative Region in 2020.

b) Waste disposal following Waste Disposal Ordinance (Cap. 354) and Hazardous Chemicals Control Ordinance (Cap. 355)

c) Effluent discharge following Water Pollution Control Ordinance (Cap. 358)

to account for the carbon emission and to dispose/ recycle waste generated by the Company's operation, in the process, the following data, if any, were used for emission calculation:

- Vehicle types, mileage and fuel used
- Electricity consumption bills
- Trains/gas bills
- Liquid petroleum gas consumption bills
